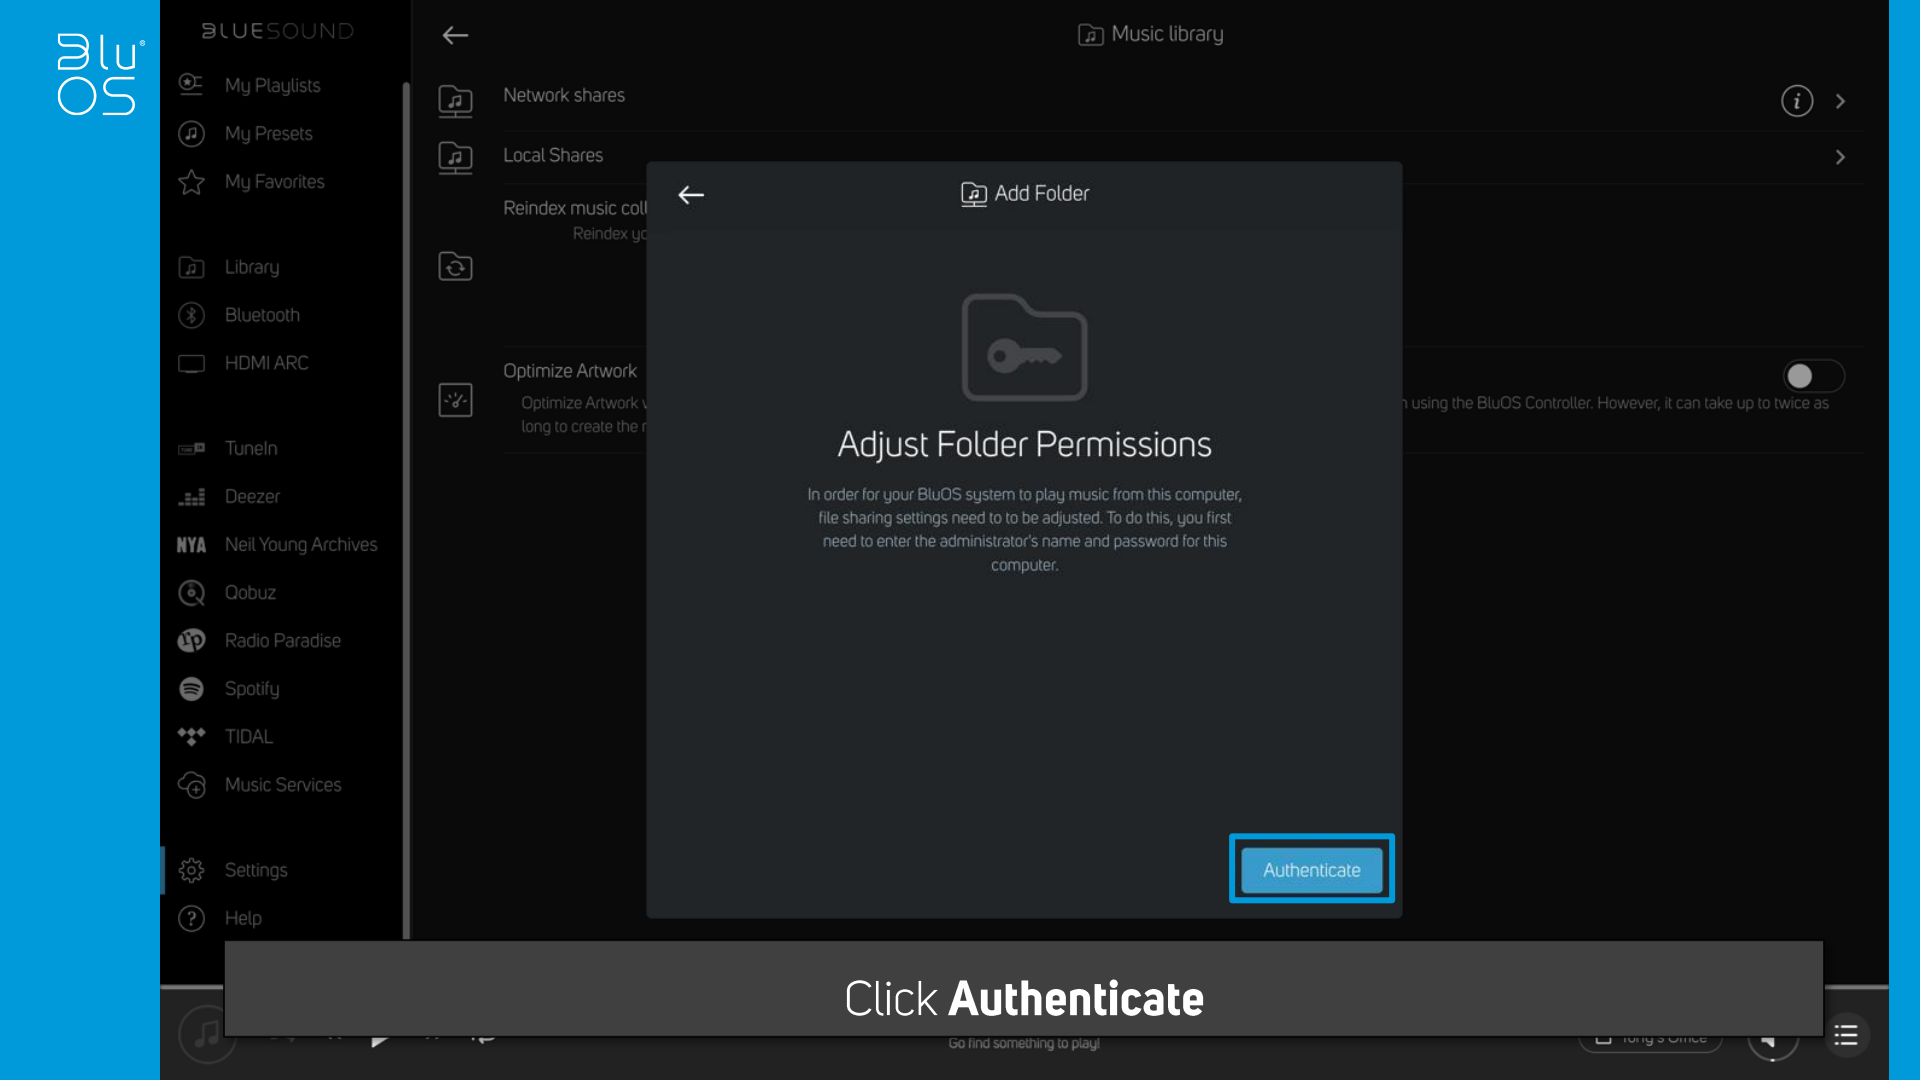
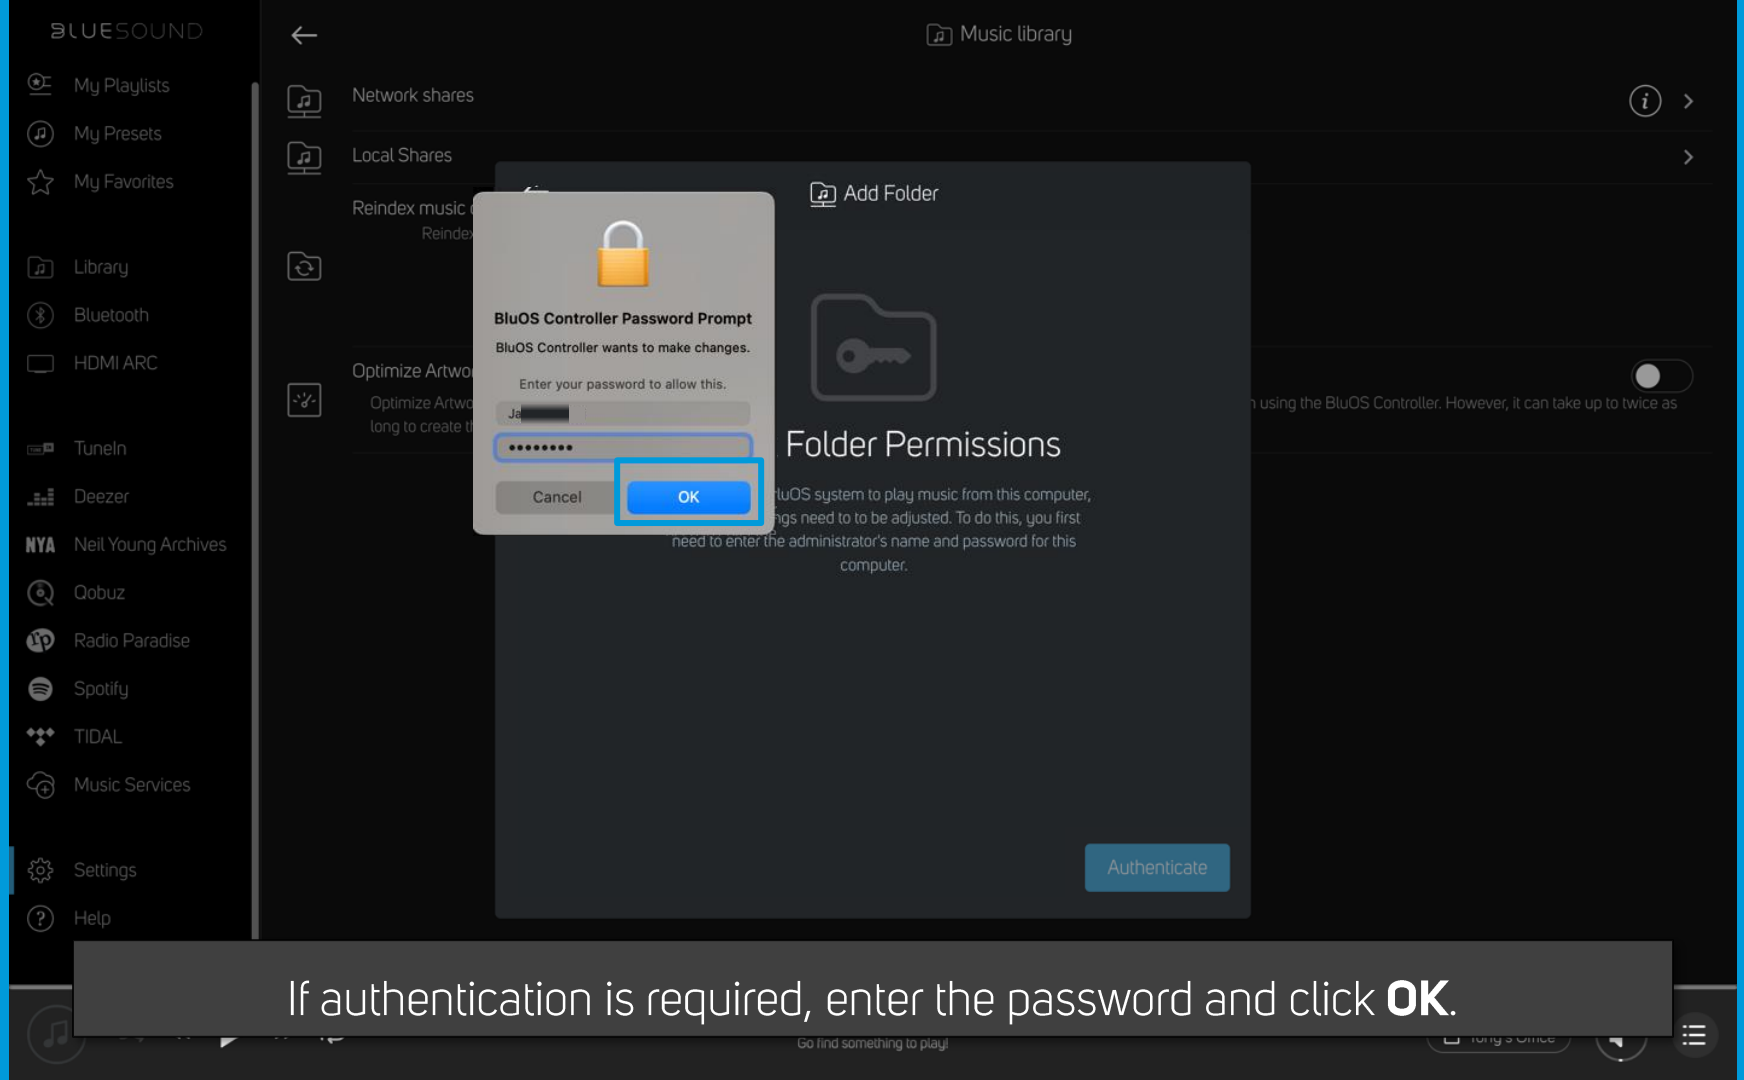
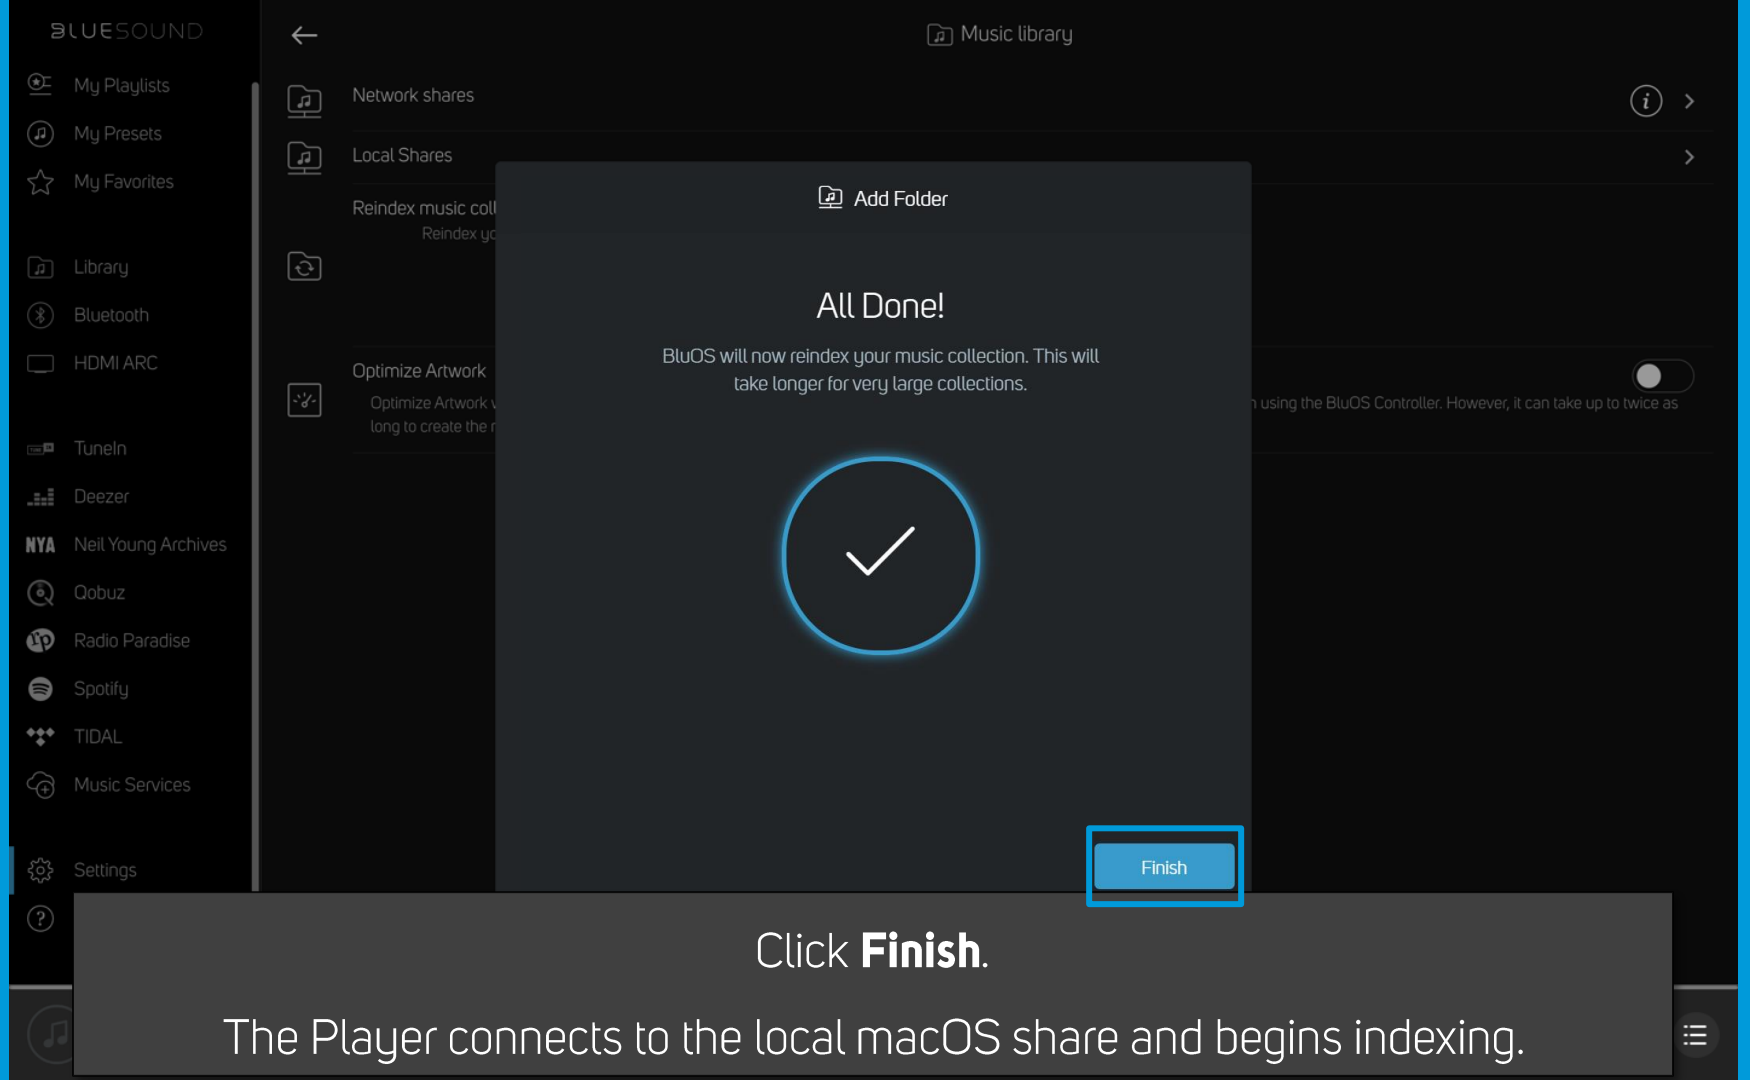
/Users/[redacted]/Documents/Music
Browse
Next
Go find something to play!
Click **Next**



Click **Authenticate**



If authentication is required, enter the password and click **OK**.



Click **Finish**.

The Player connects to the local macOS share and begins indexing.

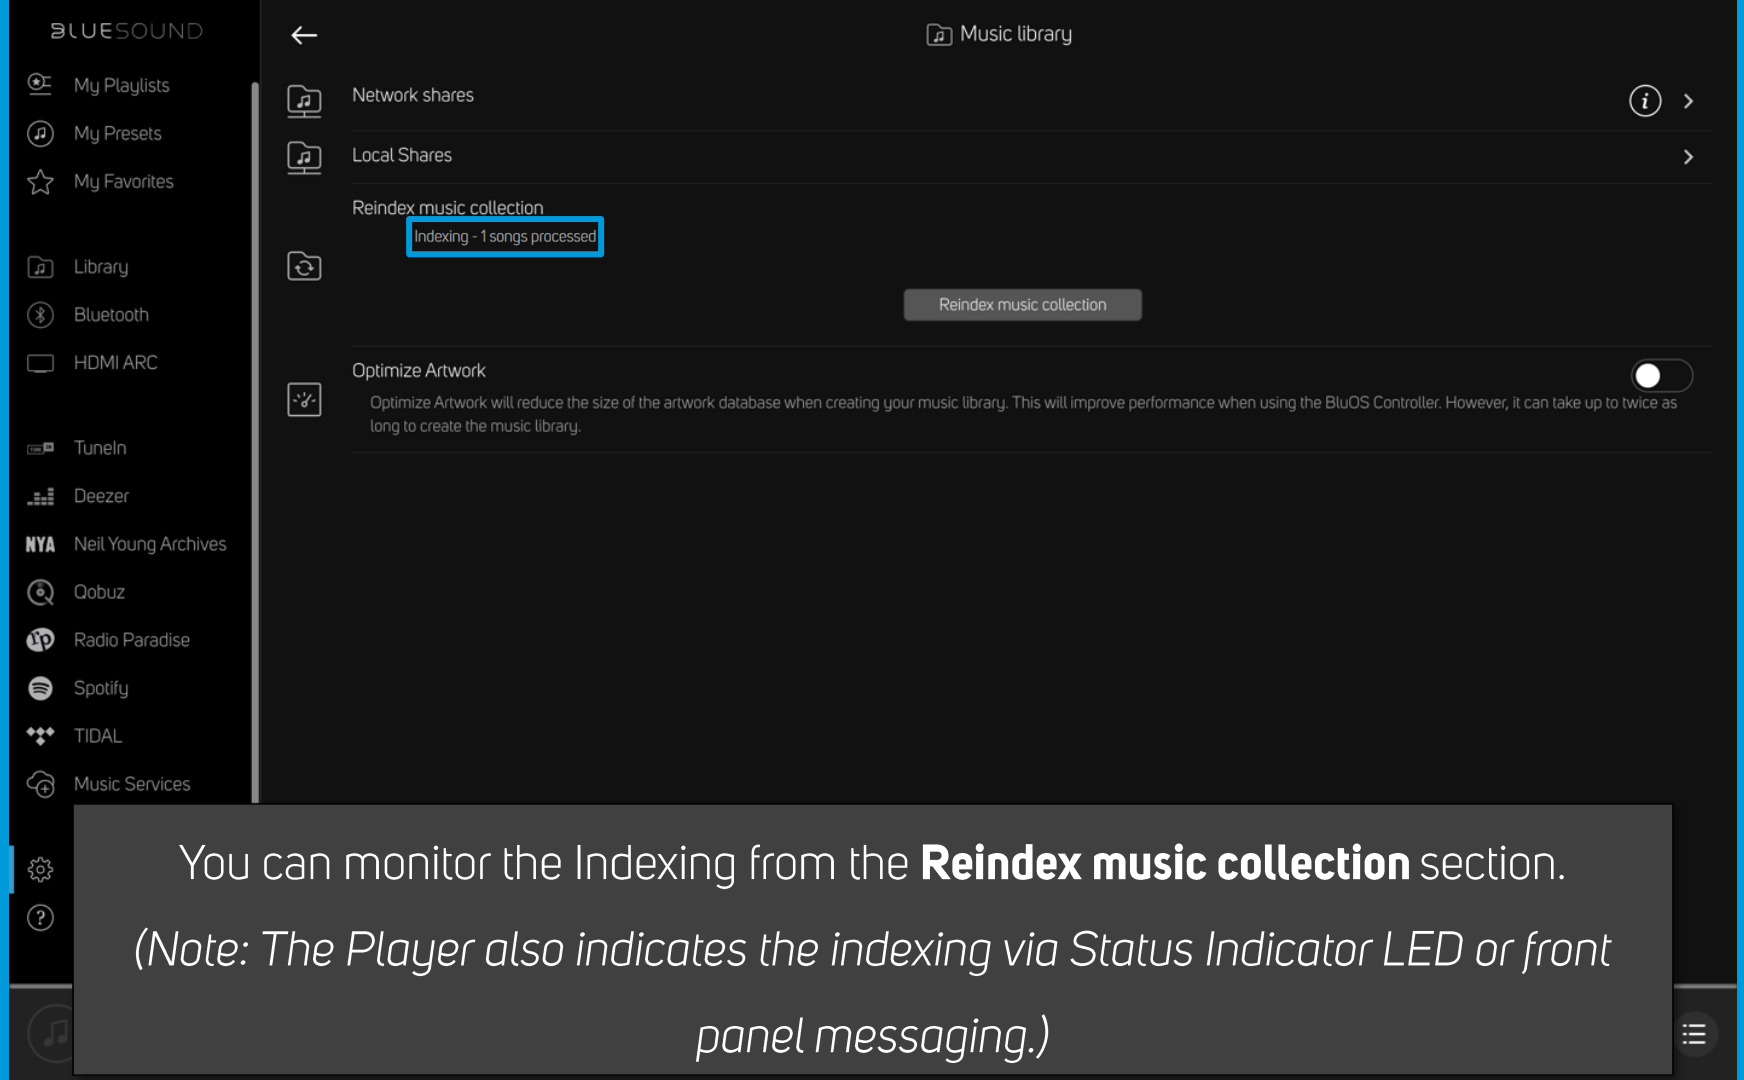
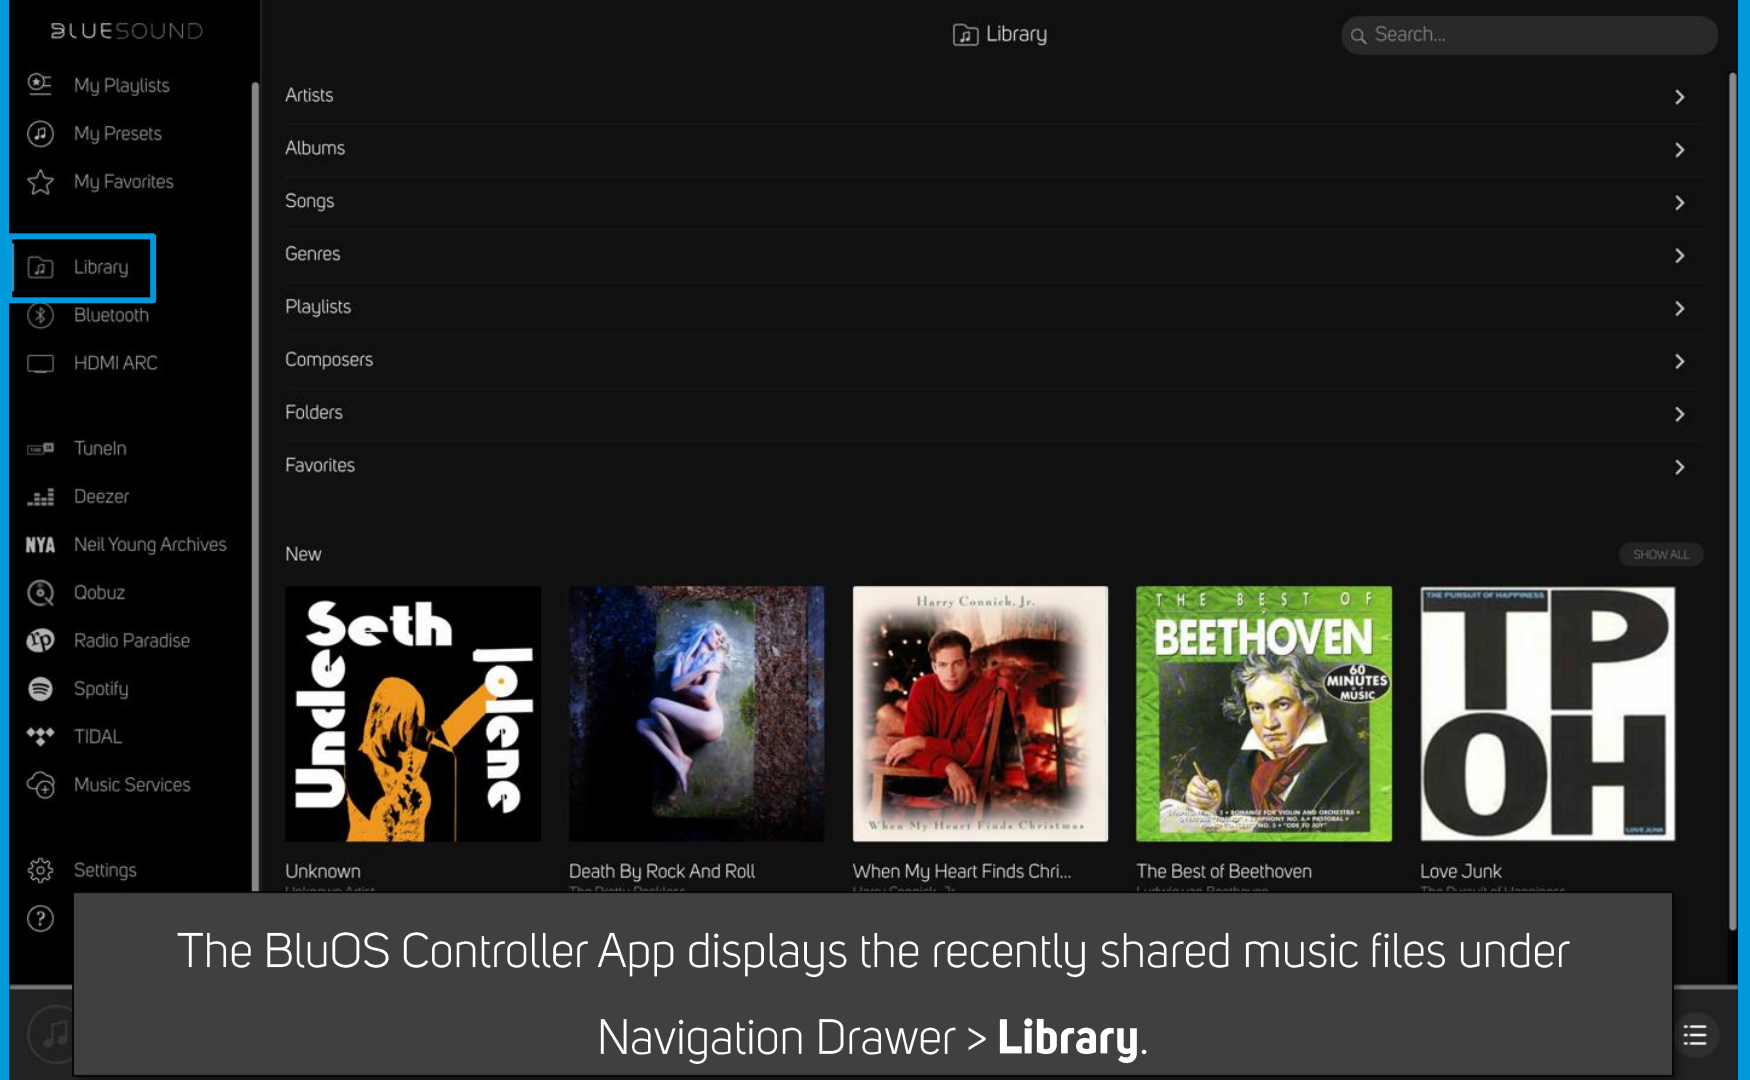
Delete
Select + to repeat and add additional folders, or X to exit the wizard.



You can monitor the Indexing from the **Reindex music collection** section.

(Note: The Player also indicates the indexing via Status Indicator LED or front panel messaging.)



The BluOS Controller App displays the recently shared music files under Navigation Drawer > **Library**.
